

# CS1716i - Online Testing

## Login Information\*

IP: <http://194.78.27.122>

Username: demo01

Password: demo01

\* Please note that the demo can be in use by another tester

## ● Instructions

(Refer to the online manual for detailed information)

- Click the following URL: <http://194.78.27.122>

- You will see a message that the site is not trusted. The below example is from Chrome

browser. The KVM uses a self signed certificate and this can not be checked by the browser. You can safely proceed. Some versions of Internet Explorer won't let you access,

use Chrome or Firefox in those cases.

- Then you will see this login screen:

CS1716i Login
